

# ADGISA - Lab 01 - Computer Setup

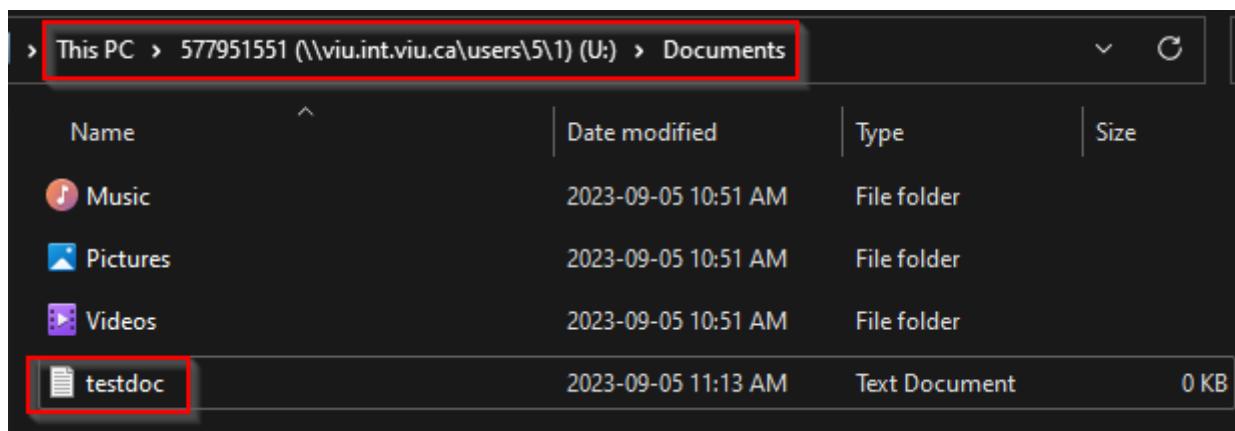

Aidan Brown

Sept 05, 2023

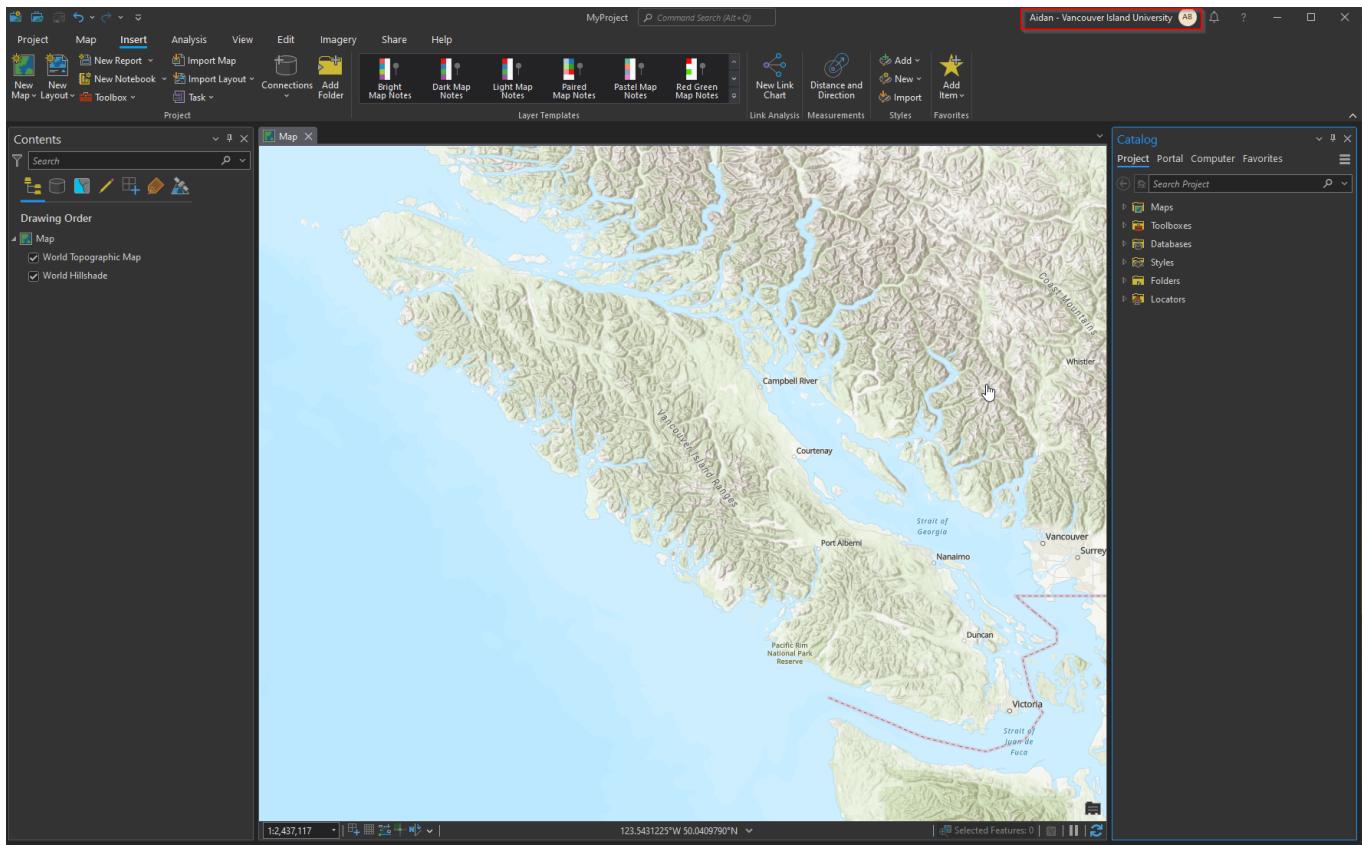

1. Screen capture of the mapped drives on your local computer - in File Explorer show the various drives (network locations) you are now connected to: U and V:

2. Screen capture of a saved file on the U drive - save a file (could be the Word file you are creating) on the U drive and show its path (shown at the top of File Explorer) to confirm you are able to write to the U drive:

3. Screen capture of the ArcGIS Pro interface on your local computer - Programs > ArcGIS > ArcGIS Pro. Just an empty project will suffice, but make sure your login credentials are shown in the top-right corner:

4. Screen capture of the ArcGIS Pro licensing - from within Pro, Project > Licensing. The licensing should show a named user license with an advanced license for Pro and licenses for some of the extensions:
